

We are looking to work with Alcorn university to provide 4 sharp interns with an opportunity to grow with SableAssent Coin Corporation.

We need 2 Software Engineers/ Programmers
2 Online Marketers/ Branding

SAC will truly thrive with 2-6 additional dedicated interns/employees who have the following skills. With my Design and fundamental/architectural knowledge of this project... The key person(s) will be capable of picking up where we are and completing the project.

Here is a job description for the position:

- Desire to work in a startup environment, able to self-manage and work remotely and in an office environment
- Must have built at least two Android and/or iOS apps with Flutter
- Proven working experience in software development
- Working experience in mobile development
- Have published one or more mobile apps in Google Play or App Store
- Experience with third-party libraries and APIs
- Working knowledge of the general mobile landscape, architectures, trends, and emerging technologies
- Solid understanding of the full mobile development life cycle, including automated testing and building
- Experience working in an agile development process

Thanks,
