

Alcorn State University

Where Knowledge and Character Matter

Graduate Student Association

"The Graduate Student Association is dedicated to promoting academic, career, and professional growth experiences for prospective and currently enrolled students. Members of this association are considered to be the official voices for graduate students in responding to their needs and improving their lives at Alcorn State University."

The Graduate Student Association (GSA) represents all graduate students in academic, administrative, campus, and university matters. The GSA also sponsors projects and social activities designed to improve the academic and social lives of students. Meetings are open to all graduate master and specialist students.

Students interested in becoming a member of the Graduate Student Association should contact the Office of Graduate Studies. The group meets every month in the Graduate Studies Conference Room in the Walter Washington Administration Building to organize activities to improve services and the engagement for graduate students. If you want to become of this association to make a difference, contact the Graduate Office @601.877.6122.
