Policy Title: Assistantships

Policy: *The Graduate School policy on Assistantships* contains the policies and regulations of the Alcorn State University Office of Graduate Studies. This policy has been established by the Graduate School Graduate Council to ensure consistent standards across Graduate programs.

ASSISTANTSHIPS

Graduate Students applying for a graduate assistantship must be admitted as a degree seeking student, have a 3.0/4.0 GPA and enroll in nine (9) semester hours as a full time student. Applying for a Graduate Assistantship does not guarantee the applicant an assistantship. Selected students will be notified by the Office of Graduate Studies. Limited research and graduate assistantships are available. Persons interested should submit a Graduate Assistantship application to the Office of Graduate Studies. All application materials should be completed before applying. Students should also contact the Office of Financial Aid concerning loans, work-study and other possible sources of funding.
