GRADUATE FACULTY
Ivan Banks, Ed.D., Dean and Professor of Education
Malinda Butler, Ph.D., Assistant Dean and Associate Professor of Education
LaShundia Carson, Ed.D., Director, Master of Arts in Teaching Program and Associate Professor of Education
Somonia Lynn Etheridge, Ph.D./JD, Visiting Assistant Professor of Counseling
Felicia McGowan, Ed.D., Assistant Professor of Education
April Owens Miley, Psy.D., Assistant Professor of Psychology
Gerald Peoples, Ph.D., Professor of School Counseling
Tabitha Smith, Ed.D., Assistant Professor of Education
LaShawn Thompson, Ph.D., Assistant Professor of Education
Dylinda Wilson-Younger, Ph.D., Chair and Associate Professor of Education
Helen Wyatt, Ed.D., Associate Professor of Education

MASTER OF SCIENCE IN EDUCATION DEGREE
IN ELEMENTARY EDUCATION

Program Description

The Master’s degree at Alcorn State University is designed to meet all criteria set forth by the State Department of Education. This degree consists of 33 hours of course requirements and leads to the AA licensure. The department offers endorsements in the following areas: Early Childhood Education, Elementary Education and Reading. The Educational programs are structured to utilize the educational experiences of the students in the program. Degrees are designed to allow students to explore issues, design curriculum and learn new strategies and techniques that will enable them to become more effective educators, through the application of theory and new research to their educational practice.

Upon completion of the courses, the student will be able to:

- Apply the central concepts, tools of inquiry, structures, contemporary theories, and paradigms in education that develop a classroom climate to enhance the social, emotional, physical and psychological aspects of students;
- Create and deliver lesson segments that reflect theory and practice;
- Demonstrate effective interpersonal communication skills of speaking, listening, reading, and writing when interacting with pupils, parents, teachers, and other school personnel;
- Design performance-based assessments and implement assessment, instruction, evaluation, and intervention plans;
- Use media and technology as tools for professional development and to promote student learning;
- Model professionalism and high ethical standards in the classroom, and develop appropriate strategies for self-evaluation as a means of assessing one’s own professionalism and teaching effectiveness.

Program Admission Requirements:

All students desiring to enter the Master of Science in Education Program in Elementary Education at Alcorn State University should first seek admission to Graduate School. Official transcripts and documentation of a Standard Mississippi teacher's license in a teaching area should be forwarded with the admission application. The Early Childhood option is only applicable to educators holding certification in K-3 or K-6 endorsement areas.
*Note: If a person is admitted with a secondary teacher's license, they will be endorsed in 4-8 only. If the Mississippi State Department of Education changes the licensure structure, the School of Education and Psychology must adhere to the changes. This program is not intended for special school personnel that have an endorsement in Guidance Education without a teaching endorsement.

The Mississippi State Board of Education approved the implementation of the Foundations of Reading Test in accordance with Mississippi Code Ann. 37-3-2, effective July 1, 2016, for licensure candidates completing traditional and alternate routes, and supplemental endorsements programs in elementary education. A teacher candidate in Mississippi must earn a passing score of 229 on this rigorous test of scientifically research-based reading instruction and intervention and data-based decision-making principles as approved by the State Board of Education. The purpose of test is to ensure that each licensed educator has the subject matter knowledge essential for entry-level teaching in the field. This licensure requirement also supports the critical role of the classroom teacher in ensuring that the students exit third grade reading on grade level.

The test measures proficiency in and depth of understanding of the subject of reading, reflects scientifically based reading research, conforms to the recommendations of the National Reading Panel, and is in alignment with Mississippi's 2014 College- and Career-Readiness Standards.

Education Course Descriptions (ED)

ED 501 – RESEARCH IN READING
(3 Credits)
This course focuses on research in the area of reading and how this research has and continues to make contributions to the overall instructional process in the area of reading.

ED 503 – CLINICAL PROCEDURES IN READING
(3 Credits)
Identification, diagnosis, and remediation of reading difficulties.
Pre-requisite: ED 317, teaching experience, and consent of instructor.

ED 504 – SEMINAR IN READING
(3 Credits)
Emphasis on current innovations and problems; special attention to research in the field.

ED 507 – DIAGNOSTIC PROCEDURES IN READING
(3 Credits)
Tests, inventories and clinical procedures in appraising reading difficulties.

ED 510 – CREATIVE AND MENTAL GROWTH
(3 Credits)
Research in the development of habits of creative thinking and its relationship to mental growth, involving art, music, drama, creative writing, and other behavior patterns.

ED 512 – FOUNDATIONS OF EDUCATION
(3 Credits)
A study of the sociological, historical, and philosophical background of education in America.

ED 514 – METHODS OF EDUCATION RESEARCH
(3 Credits)
Study of the several approaches to the formulation of research problems, data analysis and hypothesis testing; appraisal and evaluation of published research; techniques of surveying research literature; preparation of short research papers. Development of research proposal is a course requirement.
ED 515 – MODERN METHODS OF TEACHING
(3 Credits)
A methods course taught by faculty from the various areas of endorsement in secondary education.

ED 516 – CURRENT TRENDS IN ELEMENTARY SOCIAL STUDIES INSTRUCTION
(3 Credits)
Considers ways in which the materials from the social sciences can be most effectively integrated in the social studies programs of junior and senior high schools. Analyzes problems of both subject matter and methods and appraises them in the light of actual classroom and community needs and of research findings.

ED 517 – COMMUNICATIONS WORKSHOP
(3 Credits)
Development of personal skills in reading and related communicative arts; emphasis on selection of materials and the guidance of activities appropriate to individualized instruction.

ED 519 – BASIC SKILLS IN READING
(3 Credits)
Introduction to reading, history, overview of the fields, and basic instructional procedures. (May not be used as part of the undergraduate area of concentration.)

ED 521 – MANAGEMENT TECHNIQUES FOR THE CLASSROOM
(3 Credits)
This course focuses on preparing students to implement educational techniques and programs which have merit in the special and regular classrooms. Behavior modification techniques and other effective means of managing the classroom are emphasized.

ED 523 – MANAGEMENT TECHNIQUES FOR THE CLASSROOM
(3 Credits)
Addresses the identification of weakness through diagnostic means and implementing remediation techniques through the process prescriptive teaching.

ED 524 – PROBLEMS IN TEACHING ARITHMETIC
(3 Credits)
Presents recent developments in content and methodology for elementary school mathematics. Reviews research in mathematics education and stresses the application of psychological knowledge to curriculum development and classroom practice.

ED 525 – RECENT METHODS AND MATERIALS FOR TEACHING ELEMENTARY READING
(3 Credits)
Emphasis is given to materials; approaches for helping students use reading skills in ever-increasingly difficult circumstances. Particular attention is given to the relationship between reading efficiency and successful achievement in content area.

ED 526 – PROBLEMS AND TRENDS IN ELEMENTARY SCHOOL SCIENCE
(3 Credits)
Examines the historical background of current developments in elementary science curriculum. Investigates: integration of K-12 programs, problems of methodology, philosophy, materials, and evaluation in the teaching and supervision of science. Allows each student to study a particular problem in depth.

ED 527 – EVALUATION AND MEASUREMENT IN SCHOOLS
(3 Credits)
An introduction to specific principles and practices relative to group evaluative procedures with emphasis upon the developmental, diagnostic and projective techniques, case study, and standardized testing procedures within the elementary education range.
ED 529 – SUPERVISION OF THE SCHOOL READING PROGRAM
(3 Credits)
Organization and supervision of the reading program in grades K-12. Emphasis on meeting needs of in-service teachers. Interpretation and use of school-wide data.

ED 530 – THESIS
(3 Credits)

ED 531 – METHODS AND MATERIALS IN ADULT EDUCATION
(3 Credits)
A survey and analysis of various techniques, methods, and devices for teaching adults.

ED 532 – PRINCIPLES OF ADULT EDUCATION
(3 Credits)
This course exposes students to the philosophy of adult education and learning theories affecting the adult learner. Factors related to learning ability, motivation and achievement of the adult learner will be explored. Students will be able to demonstrate an understanding of the basic laws and principles of learning, especially as these laws and principles relate to the adult learner.

ED 533 – CURRICULUM DEVELOPMENT
(3 Credit Hours)
A systematic study of the history, theory and practice of public school curriculum development.

ED 534 – INTERCULTURAL SENSITIVITY
(3 Credits)
This course provides a study of the cultural background of different groups of children, implications for learning and teaching, as well as beliefs and attitudes commonly held by teachers.

ED 535 – MODELS OF TEACHING IN EARLY CHILDHOOD EDUCATION
(3 Credits)
This course is designed to focus on the major models in Early Childhood Education that have been identifies by noted authorities as effective. Comparing and contrasting the models will take place.

ED 536 – ASSESSING THE YOUNG CHILD
(3 Credits)
This course focuses on the identifying means of screening diagnosing, and determining effective evaluative procedures for the young child. Diagnostic instruments, materials, methods of teaching will be viewed for effectiveness.

ED 538 – READING AND LANGUAGE ARTS EXPERIENCE IN EARLY CHILDHOOD EDUCATION
(3 Credits)
This course focuses on reading readiness skills and language development essential for nursery-kindergarten children. Special attention will be given to procedures and provision of activities to promote and insure maximum growth in these areas of emphasis.

ED 539 – MATHEMATICS CONCEPTS AND EXPERIENCES IN EARLY CHILDHOOD EDUCATION
(3 Credits)
This course is designed to focus on mathematical skills essential for nursery-kindergarten children. Special emphasis will be given to providing the basic concepts in mathematics in order to insure continuous growth in the area.

ED 541 – BEHAVIOR FACTORS AND EXPERIENCES IN EARLY CHILDHOOD EDUCATION
(3 Credits)
This course emphasizes general influences on the child and his world and the understanding and changing of behavior to promote a more productive learning environment for all early childhood levels. Special attention will be given to factors contributing to behavior and suggestions for solving behavioral problems.

**ED 542 – PRACTICUM IN EARLY CHILDHOOD EDUCATION**  
(3 Credits)  
This course emphasizes involvement in practical experience in an early childhood setting whereas responsibility includes teaching the content areas under the supervision of a master teacher and university supervisor.

**ED 543 – THEORY AND HISTORICAL DEVELOPMENTS IN EARLY CHILDHOOD EDUCATION**  
(3 Credits)  
This course emphasizes growth and development for conception through age six and in the childbearing stage. Basic needs, common recurring pediatric health problems, and common recurring health problems of the maternal cycle are stressed.

**ED 545 – SEMINAR IN EARLY CHILDHOOD EDUCATION**  
(3 Credits)  
This course is designed to explore the many issues, trends, and innovations that have taken and are taking place in education. Emphasis is placed on problems encountered by both the teacher and student. Reading, research, and discussions will take place focusing on all special emphasis areas.

**ED 546 – DIRECTOR OF EARLY CHILDHOOD EDUCATION**  
(3 Credits)  
This course is an internship-type setting with selected directors of early learning centers. Special emphasis will be placed on administrative practices and procedures necessary for effective leadership.

**ED 548 – CHILD WELFARE**  
(3 Credits)  
This course concerns the evaluation and current developments in programs for meeting the needs of children. These developments may include substitute parental care, adoptions, child labor laws, juvenile courts, provisions for unmarried parents, the handicapped child, and the exceptional child.

**ED 549 – PARENTING IN A PLURALISTIC SOCIETY**  
(3 Credits)  
This course focuses on the involvement of parents, the pluralistic nature of American Communities, current status or research on parenting, and the powerful influences made by the home and school in a child’s total development. Special attention is given to community values, dignity inherent in cultural customs, tolerance in cultural diversity, and other policy issues dealing with American society.

**ED 550 – THESIS IN EARLY CHILDHOOD EDUCATION**  
(3 Credits)  
This course requires the designing and implementation of a research project under the direct supervision of university staff members. The research will focus on a phase of early childhood education.

**ED 571 – ORGANIZATION, PRINCIPLES, AND PROCEDURES FOR EARLY CHILDHOOD EDUCATION**  
(3 Credits)  
Educational principles and curricular matters relevant to preschool and primary levels of the school program are examined. Attention will be given to model program in the field of Early Childhood Education.

**ED 575 – METRICS FOR ELEMENTARY TEACHERS**  
(3 Credits)  
An overview of the metric system with emphasis on the historic background of measurement. Particular attention will be given to techniques of teaching distance, capacity, and weight to elementary students.
ED 576 – ART FOR ELEMENTARY TEACHERS
(3 Credits)
This course is designed for prospective teachers in the elementary school. Emphasis will be placed on the creative approach to both fine arts and applied arts. Media such as paper, wood, clay, raffia, yarn and other materials are used.

ED 580 – METHODS AND MATERIALS FOR THE GIFTED
(3 Credits)
An introduction to teaching techniques and procedures, instructional materials and methodology related to implementation and utilization of contemporary and innovative materials for the gifted.

ED 582 – ISSUES, TRENDS, AND INNOVATIONS IN READING
(3 Credits)
Emphasis is placed on issues, trends, and innovations in reading, successes and failures, and how the knowledge of this contributes to reading success in the instructional setting.

ED 583 – EDUCATIONAL INTERNSHIP I
(3 Credits)
A total immersion one-year supervised experience in a school setting. Prospective teachers learn to apply the most current research and best practice about effective teaching and learning in the living laboratory of the classroom. Pre-requisite: A three-year (non-renewable) special license issued by the Mississippi State Department of Education.

ED 584 – EDUCATIONAL INTERNSHIP II
(3 Credits)
Continuation of Educational Internship I. Interns will apply current research and best practices in teaching.

ED 595 – SEMINAR IN ELEMENTARY EDUCATION
(3 Credits)
This course allows students to survey problems typically encountered by teachers and students studying to become Master Teachers in Elementary Education, and consists of reading, research and discussion in the individual student’s interest.

ED 598 – METHODS AND MATERIALS OF READING IN THE SECONDARY SCHOOL
(3 Credits)
Organization of reading instruction in secondary schools.

Educational Administration Course Descriptions (EA)

EA 577 – SYSTEMATIC TEACHER EVALUATION
(3 Credits)
A course designed to train observers in using the Mississippi Teacher Assessment Instruments. Participants will be trained to use Teacher Plans and Materials Instrument (TPM), Position Skills (PS), and Interpersonal Skills (IS) instruments.

Psychology Course Descriptions (PH)

PH 502 – COMMUNITY MENTAL HEALTH MANAGEMENT
(3 Credits)
This course is a comprehensive study of the knowledge and skills necessary to function effectively, professionally, and ethically in providing appropriate counseling services in a wide variety of mental health environments. It will also assist the counselor to refine the necessary competencies for effective leadership as a mental health manager.
PH 504 – EDUCATIONAL AND PSYCHOLOGICAL STATISTICS
(3 Credits)
Introduces concepts and methods used for quantitative investigation. Enables students to perform and interpret the statistical work ordinarily encountered in studies in psychology and education. Topics include descriptive statistics, bivariate analysis and selected non-parametric techniques.

PH 513 – ADVANCED EDUCATIONAL PSYCHOLOGY
(3 Credits)
This course involves the analysis of psychological theories, principles, and procedures relevant to classroom learning. Special attention will be given to learning theories, testing and evaluation, personality development, and teaching effectiveness.

PH 514 – THEORIES OF LEARNING AND PERSONALITY DEVELOPMENT
(3 Credits)
A study of the nature of contrasting psychologies of learning. This is further designed to discuss and examine problems, research, and solutions through a variety of schools of thought.

PH 523 – ADVANCED CHILD PSYCHOLOGY
(3 Credits)
This course is designed to examine the advanced aspects of physical, social, emotional, mental and value development of the child from infancy up to pre-adolescent period.

PH 525 – PSYCHOLOGY OF EXCEPTIONAL CHILDREN
(3 Credits)
This course offering investigates those constituent disciplines that compose the field Special Education. The causes and incidences of the various exceptionalities within children are investigated in depth. As a graduate course, this course will require mature study, visitation with exceptional children, and surveying legal issues related to exceptional children.

PH 533 – TEST CONSTRUCTION
(3 Credits)
Students will specify or select materials and procedures for assessing learner progress on the objectives. Students will plan assessment procedures or materials appropriate for the objectives and the learners.

PH 535 – IDENTIFICATION, DIAGNOSIS, AND EVALUATION OF STUDENTS WITH DISABILITIES
(3 Credits)
A review of psycho-educational processes and techniques used in screening and identifying learning disabilities. The ability to use current principles, procedures, techniques and instrumentation in assessing learning and behavioral patterns of students with disabilities.

PH 544 – PSYCHOLOGY OF LEARNING AS APPLIED TO TEACHING
(3 Credits)
Examination of learning processes in both humans and cognition to the classroom situation.

PH 550 – INDIVIDUAL MENTAL TESTING
(3 Credits)
A practice in the assessment of intellectual functioning with emphasis on the administration, scoring, and interpretation of individual tests of intelligence.

PH 560 – ABNORMAL PSYCHOLOGY
(3 Credits)
An examination of the symptoms, origins, and treatments of mental disorders, mental retardation, and substance abuse disorders.
**PH 579 – PSYCHOLOGY OF THE GIFTED**  
(3 Credits)  
Emphasis is placed on identifying the characteristics, identification, techniques, and evaluation of the gifted.

**PH 588 – PSYCHOLOGY OF READING INSTRUCTION**  
(3 Credits)  
The reading process with emphasis on perception and its physiological and psychological correlates.
