STRATEGIC PLANNING DEFINED?

“a formal process of determining *what* ASU intends to be in the future and *how* it will get there, based on an optimal alignment of University strengths with key opportunity drivers in the external environment.”

It is finding the best future (position) and the best path (direction) to reach that destination.

**Strategic Planning:** A deliberate, disciplined effort to produce fundamental decisions and actions that shape and guide what an institution is, what it does, and why it does it.
Think for a moment . . .

What brought you to ASU?

What does ASU do well?

What could ASU do better?

What does ASU look like in the future?
