PROGRAM SUMMARY

Agricultural Economics is a dynamic field of study that deals with the application of economics and business principles to real world problems in the production, distribution, and consumption of food and fiber. A degree in Agricultural Economics from Alcorn State University provides practical skills that allow you to analyze many aspects of the agricultural industry. You'll graduate prepared to work in a variety of institutions applying your knowledge of economics and business to food production, rural development, and natural resources.

CAREER OPPORTUNITIES

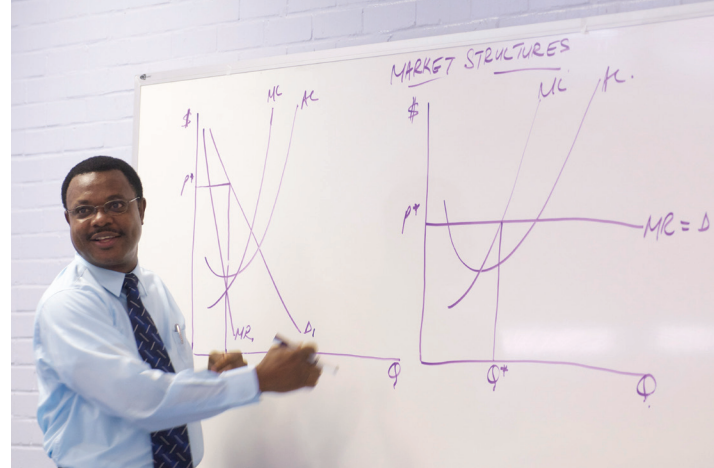

Graduates are recruited by a wide variety of employers in all aspects of agriculture and business. Current employers include local, regional and national agricultural processing and marketing firms; banks, insurance companies and other credit agencies; various USDA agencies, and other government agencies; colleges/universities.

AGRICULTURAL ECONOMISTS ARE EMPLOYED AS:

- Financial Specialists
- Business Managers
- Marketing/Sales Representatives
- Agricultural Production Specialists
- Extension Agents
- Soil Conservationists
- Loan Officers
- Policy Analysts
- Researchers/Teachers and much more

SPECIAL OPPORTUNITIES

- Agricultural Economics Club
- Research Opportunities
- Summer Employment
- Internship/Cooperative Program
- Graduate and Professional School

PROGRAM GOALS

The major goals of the Agricultural Economics Program are:

- To train students to be well rounded citizens who are competent Agricultural Economists;
- To assist students in continuing their educational goals in graduate or professional school; and
- To assist students in finding careers in the public and private sector.
