The Foundations of Reading Assessment is required for the issuance of the Elementary Education (K-6 and 4-6) License types.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. (§205(a)(1)(C)(iii), §205(a)(1)(C)(iv))

Are there programs with student teaching models?

● Yes
○ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	75
Number of clock hours required for student teaching	560

You have programs with the teacher of record model, but "clock hours of supervised clinical experience required prior to teaching as the teacher of record" and "years required for teaching as the teacher of record" are 0. Please correct the data, or confirm.

☑ **I confirm that there are 0 hours required**

Are there programs in which candidates are the teacher of record?

● Yes

○ No

If yes, provide the next two responses. If no, leave them blank.

Please provide any additional information about or descriptions of the supervised clinical experiences:

The University Supervisor assumes the major responsibility for the general welfare of the intern and serves as the liaison between the University and the school to which the teacher candidate is assigned. The University Supervisor works closely with both the intern and the public school to ensure that the interests and expectations of each are effectively communicated and generally satisfied. It is important that teacher candidates and University Supervisor are able to communicate openly and honestly with one another.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year. **(§205(a)(1)(C)(ii))**

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

>> Teachers Prepared by Subject Area

>> Teachers Prepared by Academic Major

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. **(§205(b)(1)(H))**

What are CIP Codes?

☐ **No teachers prepared in academic year 2021-22**

If your program has no teachers prepared, check the box above and leave the table below blank (or **clear responses already entered**).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. **(§205(b)(1)(H))**

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

- ● Yes
- ○ No

☐ **No teachers prepared in academic year 2021-22**

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. **(§205(a)(1)(A)(iii); §206(b))**

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ● Yes
- ○ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ● Yes
- ○ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ○ Yes
- ○ No
- ● **Program does not prepare special education teachers**

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ● Yes
- ○ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ○ Yes
- ● No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ● Yes
- ○ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ● Yes
- ○ No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Alcorn State takes additional measures to prepare teachers for teaching in rural settings: providing options for prospective teachers to become certified in multiple certification areas, promoting access to teacher preparation and professional development through distance learning opportunities and courses in rural communities, focusing on recruiting to teaching individuals who already reside in rural areas, offering practice teaching opportunities in rural communities and offering courses for prospective teachers focused on issues related to teaching in rural communities. Preparing teachers to teach in rural schools.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. **(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))**

Report Progress on Last Year's Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or clear responses already entered).

- ● Yes
- ○ No

2. Describe your goal.

The department goal is to actively recruit Mathematics education candidates and prepare them with the necessary knowledge, skills, and disposition that will allow them to become effective teachers to impact the P-12 student learning positively. Also, the school will offer the candidates professional development opportunities and financial assistance. Thus far, we have successfully graduated four (4) Mathematics Education candidates.

3. Did your program meet the goal?

- ● Yes
- ○ No

4. Description of strategies used to achieve goal, if applicable:

The department faculty monitored candidate admission and retention at the various transition throughout their matriculation through coursework intrusive advisement, and mentoring to better ensure candidate success. Candidates must demonstrate professional and academic knowledge teaching potential, skills and disposition at each point. In addition, candidates must obtain membership in professional teacher organizations (Mississippi Professional Educators and National Education Association) that provide workshops and resources such as scholarships to support career goals. A candidate's pedagogical skills are monitored at various points in the program using multiple measures. In addition, the department revised several key course learning goals to ensure alignment with national standards. Finally, it provided content-specific workshops to ensure candidates were adequately prepared to contribute tot he P-12 students in a meaningful way.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The faculty meets as a whole to review Educator Preparation Program (EPP) data an suggest programmatic, and unit charges based on that data. This is done through department meetings. Teacher Education Committee meetings, often including external stakeholders, and annual data retreat.

6. Provide any additional comments, exceptions and explanations below:

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. **(§205(a)(1)(D), §205(a)(1)(E))**

Note: This section is preloaded from the prior year's IPRC.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ● Yes
- ○ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☑ State
- ☑ CAEP
- ☐ AAQEP
- ☐ Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ○ Yes
- ● No

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

Use of Technology

1. **Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))**

   Does your program prepare teachers to:

   a. **integrate technology effectively into curricula and instruction**

   ● Yes
   ○ No

   b. **use technology effectively to collect data to improve teaching and learning**

   ● Yes
   ○ No

   c. **use technology effectively to manage data to improve teaching and learning**

   ● Yes
   ○ No

   d. **use technology effectively to analyze data to improve teaching and learning**

   ● Yes
   ○ No

2. **Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.**

   The EPP candidates are introduced to the understanding of analyzing data in the ED 527 Measurements and Evaluation course. This course is designed to develop a knowledge base of assessment strategies and tools, including how to develop and plan to achieve student learning outcomes, collect information by observing classroom interactions, develop higher order questioning, and analyze. In addition, EPP candidates learn how assessment drives individual and whole group instruction. The EPP candidates also demonstrate their ability to collect and analyze data during their internship (ED 583/ED 584 Educational Internship I/II) by completing a Statewide Impact on Student Learning. The Statewide Impact on Student Learning is a performance-based assessment tool for teacher candidates to demonstrate their ability to plan, deliver, and assess a standards-based instructional sequence, analyze student learning, and reflect on teacher candidates' instruction and student learning to improve teaching practice. This instrument has been used to measure the candidates' instructional processes and as a performance assessment tool to measure teacher candidate effectiveness. In addition, technology is embedded throughout the Master of Arts Teaching education program curriculum. The EPP utilizes technology resources to effectively prepare teacher candidates to collect, manage and analyze data to improve teaching and learning to increase student academic achievement through the use of Microsoft Spreadsheet, Google Classroom, YouTube, Canvas, online learning apps, school districts' digital learning management systems, and various databases to track and share student performance data. In addition, the teacher education candidates complete lesson plans and capstone projects and learn how to analyze student test data to plan effective instruction in delivering a lesson. The EPP purchased simSchool, an interactive platform that allows the candidates to experience the classroom in simulation using simStudents. The simStudents have artificial emotional intelligence. Incorporating this technology gave the faculty a bird's eye view of the candidates' areas of strengths and weaknesses

and candidates as well. Candidates received extensive reports that evaluated their ability in teaching and learning, classroom management, differentiation of instruction, equity, and bias in the classroom.

Teacher Training

Provide the following information about your teacher preparation program.
(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The School of Education and Psychology prepares its graduates to be informed, dynamic professionals capable of functioning successfully in diverse settings. The EPP aims to promote content competency and sound scholarship through specialized courses and experiences that will prepare proficient and effective teachers and other professional school personnel. The School of Education and Psychology consists of two distinct degree-granting departments: The Department of Education and Psychology and The Department of Health, Physical Education, and Recreation. In addition, the school is responsible for administering and coordinating professional laboratory experiences and directed teaching education for all licensure programs. The school offers instruction leading to the Bachelor of Science degree in the following areas: Elementary Education, Health, Physical Education, and Recreation. Licensure programs in the School of Arts and Sciences include biology, chemistry, English, music (instrumental and vocal), mathematics, and social science. The advanced program in guidance education is housed in the School of Education and Psychology and the Master of Arts in Teaching (MAT) Program. Teacher education candidates mirror the ethnic makeup of the University, which is 10% undergraduate white or other race and 90% black. Candidates represent thirty-seven states and sixteen countries. Some of them commute fifty miles; however, most candidates are residential. Instructional opportunities in the initial and advanced programs are varied. The program is supported by unique initiatives that allow student/faculty exchange opportunities in other states, student collaboration with faculty and P-12 personnel for technology infusion, and student participation in P-12 accelerated school projects to redesign schools' management structure. Programs received accreditation by CAEP in 2015 and, more recently, in Fall 2022. As a result, Alcorn EPP distinguishes itself as the first HBCU in the nation and the first School in Mississippi to receive this distinction.
