Dr. Babu P. Patlolla-Dean

The primary objectives of the College of Arts and Sciences

- to offer a broad program of general education for all students.
- to create in the minds of students a curiosity that is conducive to constructive thinking in their search for facts pertaining to the laws of the physical and biological phenomena of life.
- to aid in the development of the ability to think critically with regard to the complex problems of social living.
- to lay a rigid foundation for students who expect to take other technical courses and to stress the ever increasing importance of mathematics in our modern society.
- provide the student with a basic philosophy of the principles of the creative arts and a genuine and abiding appreciation for the cultural heritage of our civilization.
- to develop selected college-educated men and women for positions of responsibility as officers in the active Army and its reserve components.

To attain the above objectives, particular emphasis is placed upon precision of observation and measurement and upon the application of the scientific method.

COLLEGE OF ARTS AND SCIENCES

College of Arts and Sciences is uniquely designed to cultivate the minds of those students interested in productive careers in the STEM areas, specifically biology, chemistry, mathematics, computer science, social science, social work and the military. It also offers careers in english, fine arts, music, and communications. The major focus of the College is to ensure that each individual student is given the opportunity to dedicate themselves to dreams and aspirations of their choice while enjoying the rich heritage that Alcorn State University has to offer.

In the College of Arts and Sciences, you will find degree programs that give you insight into the basic science of life as well as the cultural and artistic aspects that make life better. Natural sciences, humanities, social sciences, fine arts—Alcorn’s largest college provides fundamental knowledge backed by character-building programs that will prepare you to make a difference in the world.

Prepare for a career in medicine. Express yourself through music. Understand the influences that make—or break—the economy. Learn why history repeats itself. Explore the numerical basis for life, or apply mathematics in the world of computers. In the College of Arts and Sciences, you’ll find a world of opportunities.

Ms. Hortense Williams
Administrative Assistant
Math and Science Building #216
Phone: (601) 877-6120
hwilliams@alcorn.edu

College of Arts and Sciences consist of:

Department of Biological Sciences:

Dr. Marta Piva
Professor/ Interim Chair
601-877-6237
mpiva@alcorn.edu

Department of Chemistry & Physics:

Dr. Hua-Jun Shawn Fan
Faculty/ Chair
601-877-6437
hsfan@alcorn.edu

Department of English, Languages and Mass Communication

Dr. Allison Olivier
Associate Professor/ Chair
601-877-3926
asequra@alcorn.edu

Department of Fine Arts

Dr. Sean Daniels
Associate Professor/ Chair
601-877-3962
sedaniels@alcorn.edu

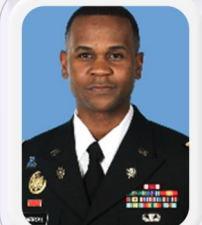

Department of Mathematics and Computer Science

Dr. Ping Zhang
Professor/ Chair
601-877-6431
pzhang@alcorn.edu

Department of Military Sciences:

MAJ. Tyrie Carroll
Professor/Chair
601-877-6442
tdcarroll@alcorn.edu

Department of Social Sciences & Department of Social Work:

Dr. Valtreasa Tolliver-Cook
Associate Professor/Chair
601-877-6337
vtolliver-cook@alcorn.edu
