

Measure 1 (Initial) – Completers’ Impact on P–12 Student Learning and Development [R4.1]

Alcorn State University uses data from the Mississippi Impact Report Card (Item 1) to demonstrate the impact of completers on P–12 student learning and development. These data include student performance on statewide assessments (MAAP and end-of-course exams) for students taught by program completers, compared to statewide averages.

For traditional route completers, student performance on statewide assessments is generally comparable to statewide averages across multiple grade levels and content areas. Students taught by completers demonstrate similar average scale scores and percentages of students scoring at or above proficiency in English Language Arts and Mathematics across grades 3–8, as well as in Science and end-of-course assessments.

For alternate route completers, student performance trends also reflect outcomes that are comparable to statewide benchmarks. While some variation exists across grade levels and subject areas, students taught by alternate route completers demonstrate average scale scores and proficiency rates that align with statewide EPP performance, indicating consistent instructional effectiveness.

Across cohorts (2020–2023), the consistency of student performance outcomes suggests that ASU completers are effectively supporting P–12 student learning and development. Although variation exists across assessments, the overall pattern indicates that completers contribute to student achievement at levels comparable to statewide expectations.

Collectively, these data provide evidence that Alcorn State University completers effectively contribute to P–12 student learning growth and development, as demonstrated by student performance outcomes that are consistently aligned with statewide benchmarks, in support of CAEP Standard R4.1.

State of Mississippi Education Preparation Provider (EPP) Impact Report

The Mississippi Impact Report Card for Teacher Education Programs (Initial Undergraduate and Alternate Route) was developed to comply with the Council for the Accreditation of Educator Preparation (CAEP) Standard 4 (Program Impact). Fourteen public and private higher education institutions submitted data to establish external benchmarks for Statewide EPP.
